## GETTING READY.

The Sound Money Democrats are Determined.

## SHARKEY GETS THE MONEY.

Corbett Sends a Telegram of Sympathy and Includes a Challenge.

## PRESIDENT'S MESSAGE COMPLETE.

New York, Dec. 3.—More than 100 prominent National Democrats interested in the formation of a permanent organization in this county met tonight at the Hoffman House in response to a circular sent out by Corporation Counsel Francis M. Scott.

Among those present were: Mr. Scott, John DeWitt Warner, Wheeler H. Peckham, United States District Attorney McFarlane, Police Commissioner Andrews, Robert B. Roosevelt, ex-Gov. Hugh S. Thompson, of South Carolina; Coroner Hoeber, John Jerome, and Charity Commissioner Faure.

There was an interchange of views, and the appointment of a committee of fifteen to draw a plan for strengthening the National Democratic organization in the county was authorized. The meeting adjourned subject to the call of the chairman.

## SHARKEY

Was Struck Below the Belt, Say the Doctors.

San Francisco, Dec. 4.—A certified check for the amount of the purse was given to Sharkey by Referee Wyatt Earp after the fight Wednesday night. Some of Fitzsimmons' backers talked of enjoining the bank from paying the check.

It is claimed as the check was certified the bank has no option but to pay its holder. It is also claimed that the decision of the referee is final and not susceptible to appeal to the courts.

Physicians and newspaper men who participated in or witnessed the examination of Sharkey after he was carried from the ring say he was visibly wounded below the belt. Doctors say his condition is serious but not dangerous.

Witnesses of the fight declare this morning that a foul blow was undoubtedly delivered, but many believe it was accidental.

## Corbett's Challenge.

New York, Dec. 4.—At the conclusion of the Fitzsimmons-Sharkey fight in San Francisco, James J. Corbett telegraphed Sharkey, as follows:

Tom Sharkey, San Francisco, Cal.: I am very sorry at Mr. Fitzsimmon's foul tactics in his contest with you, which prevented you getting a decision over him in a full ten-round contest without a foul. I am ready to meet you on or before January 1, 1897.

JAMES J. CORBETT.

one of the early settlers of this country, where he has spent a long and useful life. He was one of the most prominent and wealthy men in the county. A lifelong Democrat he was one of those advertised widely as intending still to uphold the standard of his party by voting for Bryan.

Ex-Convict Jailed.

Crittenden, Ky., Dec. 4.—Bob Routen, an ex-convict, has been running amuck in this county, and has terrorized the community. He was arrested this morning and committed to jail to await trial on numerous charges.

## Big Money for Horses.

Lexington, Dec. 4.—At yesterday's horse sales J. B. Haggins, of California, bought a Cimarron for \$15,000.

Imp. Order was knocked down at the auction sale to J. B. Haggins for \$26,000.

## Probably No Recommendation.

Washington, D. C., Dec. 4.—President Cleveland has completed his message to Congress and it is believed to contain no recommendation with reference to Cuba.

## CUBA'S LOSS.

General Sanchez, a Rabid Cuban Leader, Killed in Battle.

With General Marti He Planned the Revolution—His Death a Severe Loss.

New York, Dec. 4.—The Cuban junta has received from Cuba confirmation of the reported death in battle of Maj. Gen. Serafin Sanchez, inspector general of the insurgent army, at Las Damas, Santa Clara province, on November 20. An expedition was expected from Jamaica and part of the forces of Gens. Carillo and Sanchez started for the coast to receive it. The insurgents numbered 1200 men, but before reaching the point where the expedition was to disembark the column was attacked by 3,000 Spaniards under Gen. Inque. A desperate battle ensued, which lasted five hours, darkness making it impossible to continue the fight. In the battle, the Spaniards suffered a loss of 170 killed and 90 wounded. The Cuban loss was 43 killed and 26 wounded.

Gen. Sanchez, mounted on a small horse, was in the thickest of the battle. A column of Spanish soldiers surprised the insurgents by an attack from the rear and Gen. Sanchez received a bullet in the back. He remained on his horse, however, and although his compatriots tried to induce him to retire he refused, saying that he was not badly wounded. Ten minutes later he fell from his horse and soon expired. His last words were: “Viva Cuba Libre.”

Gen. Sanchez was born forty-two years ago in Santi Spiritu district, Santa Clara, his father being a wealthy planter. In Key West he planned with Jose Marti the present revolution, and its efforts are due in a large measure to his work.

He was great excitement among the spectators at this unexpected turn of affairs, and Mrs. Glass seemed relieved to see that there was protection near, and that her incorrigible husband, having no one else to cut, had decided to cut himself.

Justice Winchester passed sentence for \$100, the extreme penalty of the law, and Solomon dried the guilty secretions in the corner of his eyes. He said he would go to jail without resistance, and was safely incarcerated there by Officer Barnhart.

The capture of this man, who is a desperado on a small scale, was a skillful piece of detective work. As told elsewhere, when he came within an ace of catching once, and for putting them on Bob Jordan, who robbed the Wisdom residence on Jefferson street.

She contrived to escape, and ran out into the road near Mechanicsburg, fortunately meeting Officer Barnhart.

Her clothes were torn from her arms, and she warned the officer against going inside,

saying that Glass would kill him.

The officer went in and Glass threw his hand into his pocket but was quickly covered by the officer's pistol and forced to throw up his hands. He had already given the pistol to his daughter, however, and had nothing but the knife. Officer Barnhart had to let him go, having no warrant for his arrest and not having seen any of the difficulty.

No warrant was issued, and today he was consulting a lawyer in regard to the matter, claiming that a warrant was refused her when she was entitled to one.

Judge Sanders, upon inquiry, stated that she had made no application to him for a warrant and hence he knew nothing whatever about the case. Marshal Collins said the woman was not entitled to a warrant, and for that reason one was not issued.

The officers encircled themselves in a buggy, buttoned up their coats so their stars wouldn't show and struck the trail.

About four miles from the city, on the Clark's river road, they met a crowd and began offering to trade horses. Nobody recognized them, and the crowd was clear.

Officer Barnhart asked something about Sol Glass having horses to trade, and one old fellow remarked:

“I heard that Sol Glass for nearly a year, till this mornin', I seed him up the road yester, an' I speck he's ther yet.”

The officers proceeded up the road and met Glass, who was keeping in the middle of the road. He was arrested and made no resistance, and the officers would likely never have found out where he was if they had not played the “horse trade” racket, as they were about to abandon the search when they ascertained that the man they wanted was in the neighborhood.

Glass has no earthly way to liquidate his heavy fine, and as a result will likely remain in jail for three months or more.

Want the Extra Session.

Cincinnati, Dec. 4.—It is believed here that strong pressure will be brought to bear on Gov. Bradley by the national Republican committee to induce him to call an extra session in order to make sure of a Republican successor to Senator Blackburn.

Snow in South Carolina.

Columbus, S. C., Dec. 4.—The

most destructive snow storm that has

occurred in this state for many years

is now raging. Several inches have

already fallen and there is no ap-

parent prospect of an immediate

cessation.

A Nonagenarian Dead.

Stanford, Ky., Dec. 4.—Green-

berry Bright, the oldest man in Lin-

coln county died here early this

morning at the advanced age of

ninety-four years. Mr. Bright was

in the city—10 cents a week.

## WANTED TO DIE.

Solomon Glass, Esquire, Did Not Like the Jail.

## SLASHED AT HIS THROAT.

In Justice Winchester's Office This Morning—He Got a \$100 Fine.

## CAPTURED NEAR CLARK'S RIVER.

## There Will Be Two Tobacco Inspectors.

The three dissenting warehousemen will have an additional inspector of tobacco. This has virtually been settled, but as yet no election has been held, and none of the warehousemen seemed to know when it would be held.

Mr. Piper has entered into his new administration and there will likely be no trouble respecting his election.

SET FOR TUESDAY.

The Brooklyn Murder Cases Continued.

No New Developments—The Two Women Involved are Wanted.

The cases against Town Marshal Phil Lynn, for killing Miles Bradshaw at Brooklyn, and the cases against Bart and Bob Lynn and John Lemley, for killing Ben Ladd, at Brooklyn, have all been continued at Metropolis until next Tuesday.

It is learned from a reliable source that Moll Edwards and Nora Lasley, who are believed to be accessories, and who were living with the murderers, have also been indicted, but

**SENATOR-ELECT FORAKER**, of Ohio, would seem to have a desire to sidetrack Senator Sherman. Probably a fear that the senior senator would occupy too much of the attention due the representatives of the great state of Ohio has something to do with Mr. Foraker's attitude.

The government revenue for the month of November fell \$7,000,000 short of its disbursements. In the past five months, since the beginning of the current fiscal year, the deficit amounts to \$40,000,000. It will probably amount to \$70,000,000 by the time McKinley is inaugurated. So much for Democratic financing.

No plank of the Republican platform was plainer than that relating to the protection of American industries. The man whose name, more than that of any other in the country, carried with it the idea of protection, was nominated and overwhelmingly elected. Does any sane man expect the Republican party to go back on this plank of its platform? If so, he will be disappointed.

If the terrible atrocities committed by Weyler do not lead to retaliation on the part of the Cubans it will be strange. The moderation and humanity shown by the Cubans thus far is remarkable, under the circumstances. If Weyler and a few of his chief officers, whose cruelties are well known, could be the subjects of Cuban vengeance, the civilized world would rejoice.

If the nomination of McKinley had any significance whatever, it meant protection to American industries. The first thing the voter thought of when he heard McKinley's name was protection to American industries and American labor. There was not a voter in the country of ordinary intelligence who did not understand this. The condition of the country demands it. The Republican congress and president will provide it.

Spain has sent 200,000 soldiers to Cuba and has in Cuban waters the major part of her navy, it has cost her hundreds of millions of money to carry on the war which has been sustained by the Cubans during all that time. They now have in the field well equipped armies aggregating 35,000 to 50,000 men, are in possession of the major part of the Island, but Mr. Cleveland is not sure they are anything more than a lot of bandits, and hesitated to give them even a word of encouragement. He is pretty nearly the only man in the United States who has not learned that the Cubans were certainly entitled to recognition a year ago.

The prejudices which it has been the mission of the free trade Democracy from antebellum times to foster, of the farmer against the manufacturer, of the agricultural West and South against the manufacturing East, are the outgrowth of blind bigotry and shortsightedness. The best allies the farmer has are the manufacturer and the other employer of labor. It is to them he must look for a market for his surplus products. Without them he would be dependant upon a foreign market in competition with cheaper lands and cheaper labor of the world. And without the employment of the hundreds of thousands of laborers in manufactures, thousands of them would enter the agricultural field in competition with him, and thus increase the product of the farms, while the number of consumers was decreased. It is the universal experience that the farmers in the vicinity of manufacturing industries are greatly benefitted thereby. The reason for it is plain and should commend itself to the consider-

ation of every thoughtful person. The more manufacturing industries we have in operation the more prosperous is every farmer in the country.

REPUBLICAN principles involve vastly more than merely a sound and stable currency; more than sterling honesty in all business transactions, whether national, state, municipal or private individual contracts are involved; more than an upright and impartial administration of all public trusts for the benefit of the whole people; more than the fearless maintenance of the national honor at home and abroad, in our relations with other nations, and the protection of the rights of American citizens in all parts of the world. All these things belong to the code of Republicanism, and under Republican rule none of them have ever been neglected. The record of America, under Republican party rule, has been one that would never bring the blush of shame to any cheek. It has been one upon which every American can justly pride himself. But there are other principles than these, which constitute no small part of the wool of Republicanism, and without which it would be unrecognizable. One, and perhaps the most important of these, is the protection of home industries and of the labor employed therein. This principle is so inwoven with the history and traditions of the party, so identified with every prosperous period in the history of the country, that to discard it would be to repudiate one of the most important and most cherished, one of the cardinal principles on which the fabric of the party has rested. When, therefore, Mr. Bynum and other sound money Democrats, finding their whilom associates running after strange gods, hope to induce Republicans to modify their views on the tariff question, in order to make it easy for them to step into the Republican party, they may be assured of disappointment. If they wish to identify themselves with the party which has made the most glorious history of this country, with the party under whose guidance the greatest progress any country ever made has been accomplished, they will be received with open arms. But they must take the party as they find it. Its principles will not be modified to suit their views, especially after so sorry an experience of the results of those views put into practice as has been realized in the past four years. In most things except in the matter of protection to home industries and American labor the sound money Democrats are in unison with the Republicans. But if they want to join our church they must accept our creed or at least not expect the creed to be changed in vital points to meet their tastes.

## WHO CARRIED KENTUCKY?

The returns show that McKinley had a certain significance whatever, it meant protection to American industries. The first thing the voter thought of when he heard McKinley's name was protection to American industries and American labor. There was not a voter in the country of ordinary intelligence who did not understand this. The condition of the country demands it. The Republican congress and president will provide it.

It was a most satisfactory performance, and everybody was more than pleased. The acrobats were without doubt the best ever seen in Paducah.

The specialties were good, and the mechanical scenery was something never before seen here. The Brothers Byrne in their feats, and the dancing of the Coulson Sisters, were among the "hits."

The concert of Edouard Remenyi at Morton's next Monday evening promises to draw the largest crowd that ever attended anything of the kind in Paducah. Remenyi is by far the best violinist ever billed for a date and the only one with a universal celebrity who ever deigned to visit Paducah.

Polk Miller, the Southern poet and humorist, will give a reading at Morton's opera house on December 15, under the auspices of the Ladies' Aid Society of the First Christian church. His negro dialect is known all over the country.

OUT PROSPECTING.

A Branch "Greenville" Tobacco Manufactury May Be Resumed.

Messrs. H. N. and W. A. Martin of Greenville, Ky., manufacturers of the celebrated Greenville tobacco, who formerly had a branch factory at Tenth and Madison streets, this city, are in the city with a view to considering the advisability of again operating the factory. It would be an advantage to the city to reclaim these gentlemen and the industry, and it is hoped that they will return.

The Messrs. Martin returned home today. They have been out looking at the crop, in addition to prospecting, and stated that they expected to return in about ten days and establish a new stemery.

THE THORNE BILL.

John M. Atherton Will Test Its Constitutionality.

Mr. John M. Atherton said this morning that the John M. Atherton & Company distillery at Athertonville was started yesterday. Operations are now being directed toward the making of private brands, in violation of the law that was passed by the adoption of the Thorne bill. This is done by Atherton & Company with a view to testing the constitutionality of the law.

Mr. Atherton said that the distillery would run only long enough to break the law, and would close down at the end of the week. He expects that the matter will get into the courts in January.

IN A HURRY.

Mayfield People Want Stone Punished.

Judge Moss Calls a Special Session of the Grand Jury.

Jim Stone, the alleged rapist, will probably be taken back to Mayfield the latter part of next week. Judge Moss, of the Circuit Court, has called a special session of the grand jury, as follows, and today it was impaneled:

George Pryor, John McWeil, A. J. Kaler, W. W. Hughes, Frank Gillum, J. E. Harris, W. S. French, S. M. Cobb, Rome Willingham, H. B. Laty, A. G. Yates, J. R. Hester, A. M. Whitlow, John Fay, P. D. Carman, Will Austin, Ben Cook, J. O. Rutherford, G. F. Davis and Marion Collier.

Stone will not be taken back to Mayfield until all the witnesses are ready to appear, and everything is in readiness for a speedy trial. According to the Mayfield papers the disposition to lynch has been supplanted by a desire to let the accused have a fair trial. If this had not been the case, Judge Moss would never have called the grand jury, not desiring to shoulder the responsibility of the man's death by mob law.

## COMMENDABLE MOVE.

Mr. George C. Wallace Makes a Wise Suggestion.

Will be a Great Benefit to the Y. M. C. A.

Mr. George C. Wallace, by the following letter, has started a commendable move for the good of the young men of Paducah.

The Sun is hardly in favor of the suggestion, and if carried out it will redound greatly to the good of the Y. M. C. A.:

Communicated.

To the Editor of the Sun:

"There have recently appeared both in the columns of the Sun and other city papers a number of articles relative to the Young Men's Christian Association which have interested me not a little.

"In these articles the directors of the association stated the character of the work accomplished during the first year of operation and indicated also the larger possibilities for the second year, provided the institution received the proper support of the citizens of Paducah. They stated, moreover, that the condition under which the directors could undertake the work of the second year was that the needed funds should be assured by subscriptions, which, of course, implies that if the citizens are not interested enough in the association to co-operate in this practical way they will suspend operations.

"Looking at it from the standpoint of one who is interested in the welfare and the intellectual, moral and physical advancement of that great class of our population whose character determines the citizenship of the present and the immediate future, it would be a calamity if the Young Men's Christian Association were not to continue as a factor in the development of our city, and I should regret exceedingly to see its usefulness in our midst either curtailed or suspended. In thinking the matter over it has occurred to me that if the newspapers were to take the matter up and open their columns for a popular subscription, the business men and other friends of good citizenship, having their attention thus definitely called to it would certainly rally to the support of the association.

If this meets with your approval you are at liberty to enter my name for the sum of fifty dollars (\$50) for this purpose. Yours truly,

"Geo. C. WALLACE."

## "EIGHT BELLS."

One of the Largest Crowds of the Season.

A Splendid Performance—Coming Attractions of the Near Future.

One of the largest audiences of the season greeted the first production of the "Bells" company at Morton's opera house last night. Although this musical pantomime comedy has enjoyed six years of unmitigated success, it was its initial appearance in Paducah.

It was a most satisfactory performance, and everybody was more than pleased. The acrobats were without doubt the best ever seen in Paducah.

Mr. John M. Atherton said this morning that the John M. Atherton & Company distillery at Athertonville was started yesterday. Operations are now being directed toward the making of private brands, in violation of the law that was passed by the adoption of the Thorne bill. This is done by Atherton & Company with a view to testing the constitutionality of the law.

Mr. Atherton said that the distillery would run only long enough to break the law, and would close down at the end of the week. He expects that the matter will get into the courts in January.
